Joy Wilson  
Systems & Enterprises Administrative Support  
Stevens Institute of Technology  
Hoboken, NJ, 07030

Dear Joy Wilson,

I am writing to express my interest in the Graduate Research Assistant (GRA) position at Stevens Institute of Technology. As a full-time graduate student pursuing master's in data science at Stevens with a Bachelor's degree, I am excited about the opportunity to contribute to ongoing research projects and further develop my research skills under the guidance of the Principal Investigator.

My academic background and experience in data collection and analysis have equipped me with a solid foundation to succeed in this role. I am eager to contribute to the research activities by performing experiments, analyzing data, and supporting the dissemination of findings. The hands-on experience this role provides aligns with my passion for advancing academic knowledge and my desire to contribute to meaningful research.

I am confident that my research experience, combined with my ability to work collaboratively with a team, makes me a strong candidate for this position. I am highly motivated to contribute to your research group's objectives while gaining valuable experience in the field.

I have attached my resume for your consideration, and I would appreciate the opportunity to further discuss how my skills align with the requirements of the Graduate Research Assistant role. Thank you for your time and consideration.

Sincerely,

Akshay Parate
